

Create your own Magic Square

Let's Do Something Magical With Your Birth Date

- Fill your birth date in the first row of 4X4 square
- Maximum two-digit number in each square can be filled.
- Fill other squares in the 4X4 square as below:

DD	MM	yy	YY
YY+1	yy-1	MM-3	DD+3
MM-2	DD+2	YY+2	yy-2
yy+1	YY-1	DD+1	MM-1

Date = DD
Month = MM
Year = yyYY

Now calculate the following:

- Sum of numbers in each rows
- Sum of numbers in each column
- Sum of numbers in each diagonal
- Sum of numbers in four corner squares
- Sum of numbers in four middle most squares

Are all the sums equal ?

Magic square you just created was given by
Great Indian Mathematician
